

ACTION INDOOR CRICKET

Action Indoor Sports Stadiums are the most modern and professionally administered indoor sports venues of their type in New Zealand, and Action Central is the latest addition to our nationwide group.

Opened late in 2003, Action Central was designed and is run by a team with decades of experience running indoor sports stadiums, and no expense was spared during its construction, resulting in the most modern and user friendly stadium of its kind in New Zealand.

Action Indoor Cricket is fast, fun, easy to learn, and based on the traditional outdoor sport. The rules have been modified to allow for the fact that the game is being played not only indoors, but also within fully tensioned nets that add to the excitement of each game.

By having four courts and a wealth of experience at our disposal, we have been able to build the largest indoor cricket competition in Auckland. What this simply means, is that no other venue is able to provide a competition that is as evenly matched for all teams.

Every competition that we offer is fully serviced, with all necessary playing equipment, umpires and competition management provided by the stadium. All you have to do is turn up and play your game, we do everything else !

So rest assured, your team will be in very capable hands, and will be able to enjoy playing a great sport in a standard of venue not previously seen in this country.

We hope you decide to accept the challenge and enter your team, and we look forward to welcoming you to the ACTION !

Best Regards

THE ACTION TEAM

CRICKET BASICS

- An indoor cricket team is comprised of eight players.
- An indoor cricket game consists of two innings, with each innings being comprised of sixteen six ball overs.
- A typical game lasts for approximately one hour and ten minutes.
- Each player must bowl two overs and bat in a partnership that lasts for four overs.
- Batters may be dismissed in any of the manners associated with the traditional outdoor game, and they may also be caught out from the nets surrounding the court.
- When either batter is dismissed, five runs are deducted from their team's score and both batters continue to bat until their four overs have been faced.
- Runs are scored through a combination of physical and zonal runs.
- Physical runs are scored when the batters cross and successfully make their ground.
- Zonal runs are scored when the ball is played into the nets surrounding the courts, and zonal runs may only be scored if the batters also complete a successful physical run off of the same delivery.
- If the batting teams score does not move after two consecutive deliveries have been completed, it must move on the next delivery or the batters will be automatically dismissed for "Third Ball"
- We have also developed and adopted a "Double Play" rule which enables the fielding team to dismiss both batters from each delivery.
